

Activate apache rewrite engine

RewriteEngine On

Use maintenance page when it is available in system/

RewriteCond %{DOCUMENT_ROOT}/system/maintenance.html -f

RewriteCond %{REQUEST_URI} !\.(css|j|png)\$

RewriteCond %{SCRIPT_FILENAME} !maintenance.html

RewriteRule ^.*\$ %{DOCUMENT_ROOT}/system/maintenance.html [L]

Site5 not gzip files, so this is a hack

Need to generate gzip files with .gzip extension added for css and js

AddEncoding gzip .gzip

RewriteCond %{HTTP:Accept-Encoding} gzip

RewriteCond %{REQUEST_FILENAME} -f

RewriteCond %{REQUEST_FILENAME}.gzip -f

RewriteRule ^(\.+)\.(css|js)\$ /\$1.\$2.gzip [L]

FileETag none

ExpiresActive On

<FilesMatch "\.(gif|png|jpg|js|css|gzip)\$">

ExpiresDefault "modification plus 2 months"

</FilesMatch>

Phusion Passenger

PassengerEnabled on
