

```
AddType application/x-httpd-php .php .html .htm
```

```
#####
```

```
# Other methods that may work:
```

```
#####
```

```
# AddType application/x-httpd-php5 .php .html .htm
```

```
# AddHandler php5-script .html
```

```
# handler for phpsuexec.
```

```
# <FilesMatch "\.html$">
```

```
# SetHandler application/x-httpd-php5
```

```
# </FilesMatch>
```
