AddOutputFilterByType DEFLATE text/plain text/html text/css application/javascript
application/x-javascript

Netscape 4.x has some problems...

BrowserMatch ^Mozilla/4 gzip-only-text/html

Netscape 4.06-4.08 have some more problems

BrowserMatch ^Mozilla/4\.0[678] no-gzip

MSIE masquerades as Netscape, but it is fine

BrowserMatch \bMSIE !no-gzip !gzip-only-text/html

NOTE: Due to a bug in mod_setenvif up to Apache 2.0.48

the above regex won't work. You can use the following

workaround to get the desired effect:

BrowserMatch \bMSIE[!] !no-gzip !gzip-only-text/html
