

```
# $Id: .htaccess 2996 2006-02-09 00:42:17Z drbyte $  
#  
# This is used with Apache WebServers  
# The following blocks direct HTTP requests in this directory recursively  
#  
# This does not affect PHP include/require functions  
#  
# Example: direct access to http://server/admin/includes/application_top.php will not work  
# with the following installed
```

```
<Files *.php>  
Order Deny,Allow  
Deny from all  
Allow from localhost  
</Files>
```
