```
# Some hostings require RewriteBase to be uncommented
```

```
# Example:
```

```
# Your store url is http://www.yourcompany.com/store/cart
```

```
# So "RewriteBase" should be:
```

```
# RewriteBase /store/cart
```

```
RewriteBase /
```

```
RewriteRule ^news_(. *).html$ /news/news.php [L, QSA]
