

#todo do we need one of these if the virtualhosts file is set up correctly?

#todo should this be in folder above?

```
#<IfModule mod_rewrite.c>
```

```
#  Options -MultiViews
```

```
#
```

```
#  RewriteEngine On
```

```
##  RewriteBase /gulp-starter/web/
```

```
#  RewriteCond %{REQUEST_FILENAME} !-f
```

```
#  RewriteRule ^ index.php [L]
```

```
#</IfModule>
```
